

I depend on my xm radio for traffic, weather and entertainment. Although I've only had the service for a short period of time, this is all I listen too. I travel a lot and spend most of the time in my SUV, well, it's my office. Radio doesn't work for me because I don't have time to search through the entire band for a local station. XM radio is there for me in any town, or state. I pay for this service and feel as though xm should have the right to provide me the customer with the services I need. Their service should not be limited!

Thank you for your time,

Mark Dalton
